SOCIAL CLUB IS ORGANIZED

A meeting was held in the Methodist Church on Friday evening for the purpose of forming a social club to provide entertainment for the coming winter.

The church was held the chair and after explaining the purpose of the meeting it was agreed that a club would be of great benefit in the town and it was decided to form a club known as the Munson Social Club to meet every two weeks.

The following officers were elected:
Rev. Rogers, Pres.; W. B. Walrod, Vice-Pres.; P. Pervot, 2nd. Vice-Pres.; F. W. Boyle, Secy.; Treas.; Committee, Mrs. Valley, Miss Molyns, Miss Douglas, Mrs. Jackson, G. C. Duncan and Jas. Humphries.

The church was made the meeting place of the Club until a more suitable place could be found and the meetings will be held on the 1st and 3rd Monday of each month commencing on Nov. 6th. The first meeting, however, has been changed by the executive to Oct. 30th, to hold a Halloween Social. The membership fee was fixed at \$1.00 for the gentlemen, ladies free, and no person will be admitted as a member under 15 years of age. Every person in the town who is eligible to become a member should join this club and help to make it a success. It is expected some very instructive and enjoyable hours will be spent at these meetings.

Didsbury will do it

Didsbury constituency is going to "do it." Do it in this case means the raising of the \$12,000.00 asked from that constituency for the South Alberta Patriotic Fund for 1916-17—and then some more if the enthusiasm shown by the Didsbury people is any indication. Fifteen leaders of the constituency met at the office of the Secretary of the South Alberta Branch at Calgary on Friday, Sept. 29th and decided to form a Central Committee with the following officers: Honorary Pres., J. E. Stauffer, M. L. A.; Pres., W. H. Cumming, Drumheller; Vice-President, H. E. Osmond, Didsbury; Secretary, A. H. Gibson, Drumheller. The Executive Committee will consist of the presidents of all the local branches and it was decided to meet three times a year, viz. on the third Friday of December, March and June to report progress.

Amounts will be allotted to the different districts in the constituency covering the entire amount asked for, and the utmost enthusiasm was evidenced by those present. The action of the Didsbury constituency in organizing it's own Central Committee and placing it's work on a business basis is one which will undoubtedly place that district among the leaders in the new campaign.

We understand that Frank Duncan, who has been spending several months in the States, has returned to Canada and has enlisted in the 18th Battalion.

Order your Private Christmas Greeting Cards at the Mail office. A fine line of samples to choose from.

Thos. Heimbolt, who is charged with the murder of Frank Whiteside at Coronation, was given a preliminary hearing at that place on Tuesday and was sent up for trial.

Jas. Humphries was a week out of Calgary.

With beef 44 and rice 32 per lb. in Vienna, we think that our local butchers and grocers will have to hurry up to reach this goal.

Rural High Schools—Why not?

The Consolidated Rural School practically means a High School in a rural area. The day is past when the value of a good and liberal education was a matter of debate. The day has arrived to discuss how a good and liberal education can be made accessible to every child. Parents are reluctant to send their children away for High School training, yet the urgency of such training overrides every other claim and they are obliged to leave home. For all classes the need of the hour is a knowledge of the advantages which Consolidated Schools offer, attention therefore is called to the important visit of Dean Howes, of the University of Alberta, to Munson on Wednesday, October 18th.

Dean Howes will speak in the Methodist Church and as this speaker leaves Munson the same night at 10 p. m. for Hanna, the meeting will be opened at 8 p. m. prompt. Discussion is invited, all interested in the best of education possible for rural parts are urged to attend. Do not forget the date.

SCHOOL GIRL FROCKS FOR EARLY FALL

*Pockets Break the
One Piece Line*

*Every Girl Likes a
Striped Middy*

*There Must be a
New Party Dress*

THE school girl is very apt to wear cotton or linen all winter for every day, if she can afford it, or has some one at home who is willing to do the extra laundry.

Taking this into consideration, then, it is not surprising to find most mothers fitting the young girl in her teens with cotton and linen frocks for the early school days and expecting them to last thru-out the winter. But before one considers the practical frock of linen, glance for a minute at the pretty party frock, which every little girl sighs for and ought to have. This is just as girlish as it can be, its only trimming being the smocking at skirt yoke, blouse yoke, sleeves and pockets in delicate blue. The material is crepe de chine.

The brown-eyed maid of twelve will feel quite important in a frock of brown linen with ecru vest and trimmings. The frock is in one piece and the pockets terminate a belt which does not destroy the effect of the front panel.

A princess jumper frock is made to be worn with different guimpes, altho the one with it in the photograph has a touch of light blue on the collar and cuffs to match the blue of the linen frock. More hand embroidery ornaments the shoulder straps and pockets of this graceful dress.

Linen again forms the smart little two-piece model of dark green with white trimmings. In the white collar and cuffs green cotton is couched along the edge. A black moire ribbon ties the tiny vestee together. This blouse goes on over the head and is worn with a plain kilted skirt.

Where is the girl who does not feel at home in a middy blouse? Here is a particularly stunning one in pink-and-white-striped wash-silk, to be worn with a separate white flannel skirt. This could be copied in linene if the above combination sounds too impractical for school; but both the flannel and the silk may be thrust in the washtub without fear.

men as companions in toil. It is not, however, the practice to give special consideration to those of a higher social standing. It is expected that they will enter the industrial army in a patriotic spirit and accept its drawbacks and triumphs as cheerfully as the men who take their chances in the army. Women who thus emulate the example of our soldiers, sinking all minor considerations in the pursuit of a great purpose, are winning honors for themselves and victory for our troops. It should be added that what has been said about the conditions of munition work applies in a great measure to men as well as to women.

Setting Up Phenomenal Instances of Dairy Capacity

We ran across a senseless article the other day in an agriculture paper which undertook to prove, by selecting a few "phenomenal" bulls, that a fair of Merit, what a paying business dairying is. There is altogether too much of the expounding of a few laws in each of the dairy breeds, laws that are simply born phenomena. Nine hundred and ninety-nine out of every thousand of the cows in this country are not represented by the one thousand cow that overtops them all, and the same is true of the nine hundred and ninety-nine farmers out of every thousand dairymen. The industry of the dairy is too much carried on a few of such kind to be measured and understood

Report of the Craigmyle Farm Women's Club.

The regular meeting of the Farm Woman's Club was held in Craigmyle on Sept. 20th. The minutes of the August meeting having been read and approved it was arranged to hold a social on the occasion of the poultry lecture by Mr. Benson of Edmonton. Mrs. Smith and Mrs. Nixon were appointed to take charge of the musical part of the entertainment.

The feasibility of making a co-operative shipment of potatoes was brought up and the president was instructed to write the Board of Trade of Calgary and Edmonton re finding a market for the magnificent crop of potatoes which has been raised in Craigmyle district.

The club decided to go in for the raising of "Elite" seed potatoes of one variety the selection of which was left over to a future meeting at the suggestion of Miss Moodie. A copy of Mrs. Parly's address given before the "Conference of rural leaders" at Edmonton entitled "What the U. F. W. A. is trying to do for the farm women" was read by Mrs. Brown. The speaker touched briefly on the "Farm Woman's problems which the expert would solve themselves when the farm people got their heads above water financially because the farm man was not as is often pictured an inhuman brute who denied his wife the possession of any of the labour saving devices while he squandered their joint earnings on all sorts of mechanical toys for his own satisfaction. In a few words she pictured the early days when people 40 miles apart were neighbors and every shack kept open house, but with the inrush of settlers railways etc. life seemed to contract and the daily round became more and more monotonous and lonely and to contract this tendency as much as possible the U. F. W. A. had been organized the aims of which are as follows:

1. The development of a rural life in the rural districts.

2. The general uplift of farm life the bringing of some form of recreation into the life of the farm by the forming of libraries, social centers etc.

3. The forming of young people's clubs where the boys and girls can be trained to take an interest in the joys of a farm life.

4. The awakening of a sense of social service and public spirit among its members.

5. The education of the farm women as to the value of their new privilege of citizenship.

6. The study of co-operative marketing the small produce of the farm. The awakening of keener interest in such matters as rural education, rural health and the simplifying the work of the home.

Moved by Mrs. Thomas seconded by Mrs. Smith that a hearty vote of thanks be accorded Mrs. Brown for the trouble she had taken to attend the meeting in order to read the address.
